LEVERAGING **MUNICIPAL/UTILITY PARTNERSHIPS** TO CREATE A STRAIGHTFORWARD, STREAMLINED APPROACH TO **AFFORDABLE HOUSING ELECTRIFICATION.**

OUR TEAM

Well over halfway to our goal of reducing emissions 80% below 1990 levels by 2030, the City of Palo Alto is committed to providing clean energy solutions to our community.

One of the largest, most trusted non-profit developers, owners, and managers of affordable housing in Northern California with a mission to provide beautiful, well managed affordable housing that makes residents and neighbors proud.

A non-profit technical services and training organization focused on bringing the benefits of clean energy and energy efficiency to disadvantaged communities.
