

1

Field Survey Brokerage

A gig economy marketplace where survey firms can connect with certified surveyors to complete remote work. Job posters can script the field work to be completed and a broad range of surveyors can select from jobs in their area. The brokerage serves as a gateway to green careers and a low-barrier access point for members of disadvantaged communities.

2

Rebate Database & Alerts

An interactive database board where rebate and financial incentives for efficiency upgrades are maintained and owners of qualifying equipment are alerted to available programs. Surveyors identify the equipment and rebate alerts are automatically triggered.
