

# Rental-Scalable Smart Grid Energy Savings and Storage

- Combination of HP/HPWH installation (electrification) with
- DOE-funded PACE AI ([www.pacecontrols.com](http://www.pacecontrols.com)) + NREL Game Changer-winning, circuit-level CO-Z smart energy storage system (ESS) ([www.hyggepower.com](http://www.hyggepower.com)) (easy, low-cost smart grid modernization and resilience)
- Utility-rebate subsidized installation, immediate cost savings for customers of all types
- HVAC and property management workforce training
- Sets up for Virtual Power Plant demonstration
- Aim to demonstrate in multiple building types and in 5 communities across the U.S
