

Technical Assistance Request.

1. Solar panel of 500W or higher, 24 volts but preferably 48 volt.

2. 600VDC input, 120/240 VAC single phase, true sinusoidal 5KW inverter.

3. AC Electronics loads.

4. Solar test equipment.

Fluke Multifunction PV Tester Tracer

Solar Irradiance Meter

5. Safety and Consumer Certification Lab
