

Provide a two-page description of the areas where you need assistance to realize your solution. Consider the unique capabilities the national labs, a private facility, and/or members of the American-Made Network could provide to you to resolve these barriers. The Prize Administrator will make this request broadly available so members of the American-Made Network can understand your needs and assist you, with the potential to earn Recognition Rewards for that assistance.

To achieve success, we need funding assistance to create a substantial marketing plan and sales campaign to influence brand awareness.

Our second area of focus is that we need assistance in creating a workforce development plan for our company. We recently purchased a building that is over 6500sq feet. The building is in an opportunity zone, and we look forward to bringing jobs to the local community.
