

# Parinda's challenge details for challenge: [Solar Prize](#)

## [Round 7](#)

Generated at Tue Sep 26 2023 19:58:56 GMT-0400 (Eastern Daylight Time)

### Explanation

We are looking for assistance in software development, we've built an educational platform that has an average of 10k monthly web traffic. We need more software engineers to help build our new financial tool for the public to use and discover zero-to low-interest green loans.

Further, our success depends on creating relationships with financial institutions that provide green loans.

### Key Needs

- Funding & Investments (5 / 5): We're looking for more non-dilutive funding opportunity to advance consumer education in clean energy and build tools to help consumers make energy efficiency improvements.
- Software Development (5 / 5): We're looking for more software engineers or companies capable of software development to help us improve our financial planning tool.
- Marketing & Promotion (5 / 5): We can always use help in this area.
- Business Development & Commercialization (3 / 5): We're looking for someone with experience in residential green loans and deal originations.
- Legal, Insurance, and Public Policy (2 / 5): We're unsure of any legal hurdles we'll be encountering when entering into the green loan space.
