“AIO FSP Complete”

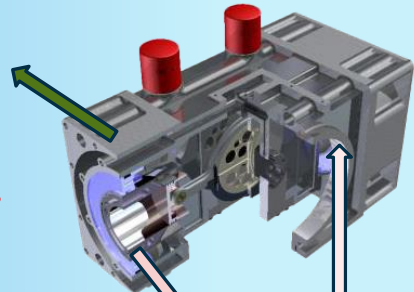

Round 7

Solar Energy, Rays

Super Heated Water,
High Pressure
Flashes to Steam in
Engine's Drive End

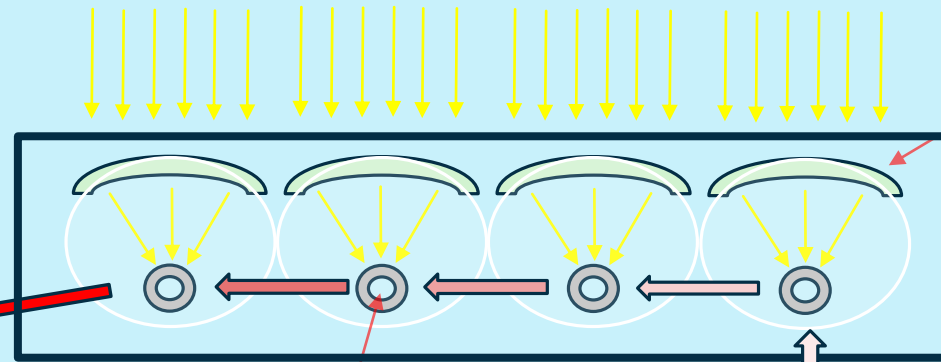

Electricity
Out,
Engine's
Generator
Compressor
End

Heated Water for
Hot Water,
Heating,
Processing,
Heating Gas

Drives Engine After Dark
or No Sun

Lens Assemblies, Focuses
Energy on Absorber

Lens Assembly Framework,
Tracks Sun

Water thru Absorbers, Soaks up Heat

Steam Exhaust Returns,
Condenses to Water

Pressurized Water
Enters System

System has potential
to purify brackish
waters or desalinize
salt waters
