

Integrated Solar PV: Circular Perovskite/Si Manufacturing

Highest durability module encapsulation for Perovskite/Si solar modules

Dr. Ben Damiani

- EE PhD from Georgia Tech
- Studied at Fraunhofer
- Created first ion implanted Suniva products
- Worked at Intel, SolarWorld
- 30 papers and multiple patents

Dr. Juan-Pablo Correa-Baena

- Professor Georgia Institute of Technology
- Perovskite Research Interest
- High throughput deposition of halide perovskites
- Synchrotron-based elemental imaging techniques
- New materials for solar cell long term durability
- Multiple publications and patents

Roland Einhaus

- PV Veteran with 25 y work experience
- Co founder of Apollon Solar
- Co Inventor of N.I.C.E. Technology
- Engineer at Photowatt and imec
- Experience with technology transfers
