

Community Power Accelerator Prize

Team Name:

United American Marketing

City and State: Oak Brook, Illinois

Submission Title: Solar Energy Accessible And Affordable To All

Organization Overview

UAM is a dynamic and innovative, self-funded, minority-owned international energy agency and energy project developer with a global presence spanning across the United States, Europe, and Africa.

UAM is driven by a Mission to democratize renewable energy by making it accessible and affordable to all.

UAM's key product lines are: 1) Deregulated Energy Supply; 2) Community Solar for Renters, Homeowners, and Non-Profits; 3) Rooftop Solar for Homeowners, Non-Profits, and Businesses, and 4) EV Charging for Businesses and Non-Profits.

Since 2013, UAM has helped hundreds of thousands of commercial and residential customers in Illinois analyze their energy bills, identify energy solutions, and become more environmentally responsible with their energy use.
