

Cooperative Energy Futures

A Minnesota Clean Energy Cooperative

- Community-owned with over 1,100 member-owners across Minnesota
- Member-elected Board of Directors and profit distributions to members

Track Record of Equitable Community Solar:

- Developed and operates 8 community solar projects (6.8MW, \$16.5M)
- Rooftop, ground-mount, and parking canopy projects
- Offsets energy bills for ~700 members at 25%+ lifetime savings
- Community ownership with accessible membership (\$25 share price)
- Members include renters in affordable housing, residents of manufactured housing parks, and Spanish and Somali-speaking immigrants.
- 50%+ minority workforce on solar installs and supporting emerging installers

Prepared to Replicate Our Model:

- 5 secured project sites (6.375MW) to be developed by 2024
- Goal of expanding to 10-15 equitable community solar MWs per year
- Also innovating accessible models for rooftop solar for low-income renters
- Supporting emerging community energy cooperatives nationwide
