

Meaningful Benefits & Community Solar in Baltimore

The **Climate Access Fund** is a statewide non-profit green bank that acts as both a financier & developer of community-owned community solar projects where low-income households (LIHs) comprise at least 50% of subscribers.

Project Goals

- ★ Develop a two site, 1.17 MW community solar portfolio in Baltimore City (EJ Screen & Justice40 “disadvantaged” communities)
- ★ Keep economic benefits hyperlocal through ownership & local hiring
- ★ Subscribe ~200 LIHs who will receive a 20 - 25% electricity bill discount.
