

ENERGY ADVANTAGE

Energy Advantage Roofing and Solar specializes in solar systems and roofing solutions. Based in Denver, CO, our company was established on Gratitude, Resilience, Accountability, Connection, Empower, and Service principles. Our goal is to make an environmentally friendly change by offering renewable energy solutions, which will decrease our dependence on fossil fuels while helping to provide power for homes and businesses nationwide.

THE TEAM

Jeremiah Broz and Takuya Davis, founders of Energy Advantage Roofing and Solar, lead the team with a shared commitment to environmental sustainability and economic development. Jeremiah, a dedicated steward and serial entrepreneur, focuses on providing reliable roofing solutions for sustainable homes. Takuya, a skilled entrepreneur, has experience across various industries, including solar, and is dedicated to making a positive impact. Together, we are driving change in clean energy technology.

OUR WHY

Energy Advantage is competing in this prize to accelerate the shift towards clean power and create sustainable jobs for the youth.
