

## Coalition Changes

In tandem with operationalizing the Implementation Plan, ReBuildATL made progress in coalescing the core team, strengthening governance structures, setting goals for future programming, and conducting outreach to both the community and potential partners.

## Justice40 Initiative Alignment

**Coalition and partners address the following Justice40 DAC priorities:**

- #1: Decreasing energy burden
- #3: Parity in clean energy tech access and adoption
- #5: Clean energy enterprise creation and contracting
- #6: Clean energy jobs, pipelines and training
- #8: Energy democracy

## Phase 3: Coalition Impact

### Coalition Development & Capacity Building

- > Formal governance structure, refined Values Statement, governance and program work groups, conducting workshops and outreach with residents, partners and potential partner organizations

### Implementation Activities & Results

- > Energy audits and electrification survey, installing e-meters, weatherization/repairs
- > Expand workforce dev to include apprenticeships, increase focus on green jobs

### Vision and Long-Term Impacts

- > Serve on boards and commissions to steer policy
- > Sponsor ongoing community-centric activities that align with J40 objectives
- > Provide additional energy resources, programs, financial and technical support
