Clean Energy Awareness through Art

Utilizing art to prepare underserved communities, K-12 students and HBCU students with tools to decrease their carbon footprint while learning about clean energy activists, clean energy types, and the importance of a transition to clean energy for all

Justice40 Priorities

3

Increase parity in clean energy technology access and adoption in disadvantaged communities

6

Increase clean energy jobs, job pipelines, and job training for individuals from disadvantaged communities

8

Increase energy democracy (stakeholder engagement to facilitate decision-making) in disadvantaged communities
