

# TEAM GEORGIA HD 98

## OUR COMMUNITY

- **unincorporated Norcross** (in most diverse, second most populous county in Georgia)
- **87 percent BIPOC** (50 percent **immigrant**), 25 percent poverty, 40 percent uninsured
- **all DACs** (White House Climate & Economic Justice Screening Tool)
- **most housing AND energy burdened** residents (and oldest housing stock) in county
- **Local manufacturing is top 3 local industry**, but not trained to do local clean energy home manufacturing projects (some already funded)

## OUR TEAM

- **CBO:** Lucky Shoals Community Association, Latino Community Fund
- **Business/workforce:** Georgia Hispanic Construction Association
- **Energy experts:** Southeast Energy Efficiency Alliance, Georgia Tech Research Institute
- **Housing:** Gwinnett Housing Corporation

\*with support of **HD 98 State Representative Marvin Lim**

## OUR TEAM'S EXPERIENCE

- **community engagement:** identifying needs and lived experiences of energy burdens in housing, inc. survey of 21,980 households in Norcross AND survey of minority business contractors
- **clean energy workforce:** introductory engagement and training for local clean energy workforce
- **clean energy/housing projects:** securing federal and other dollars for clean energy housing projects (weatherization, solar, etc.)

## OUR PROPOSED WORK

- building out a **clean energy manufacturing workforce program**, including component of
- training via **existing local clean energy in housing projects**, and
- completing demonstration project on **pilot "green campus"** to be the site of future clean energy home manufacturing work.
