

# American Made: Re-X Recycling

## Summary Slide-Halle Lisette Pierce

- Benefits of repurposing and reusing wind turbine blades:
  1. Use blade parts at parks, wind farms, and rural areas.
  2. Use in construction, side roof paneling in housing, bridge rails, guardrails, ramps.
  3. Reduce waste, and save money, being less costly by not disposing of wind turbine blades at the landfill.
  4. Promote more clean energy jobs
  5. Boost the economy.
