

Who is Hydro-Logix

- Led by an Independent hydrologist with significant field experience of over 50 years
- Company formed in February 2014
- Brings a unique perspective to food and waste recycling – practical, inexpensive and scientific
- Lower costs for maintenance, construction and operation which can be the very beginning of how to transform inhabitable/inhospitable environments so they are habitable (Terra-Form)
- Works anywhere on the globe but works better near coastlines or river banks
