

Green Workforce Program: Climate Jobs & Justice

Ensuring that people most impacted by climate change have a voice and primary role in the production of climate change solutions

Courses in Solar Installation, Green Buildings Operations & Maintenance, High Efficiency HVAC, Industry Certifications, and more

Specialized placement support for clean energy & climate careers

Prioritizes students and adults with societal, economic, or racialized barriers to employment & disadvantaged communities

Trains and certifies hundreds of people each year - over 5000 since program inception

Go-to green jobs and clean energy trainer for New York & New Jersey workforce development

The Community Energy Innovation Prize will help Solar One expand its program and energize the regional climate-smart workforce.
