

Clean Energy Ecosystem

NORTH FORK COMMUNITY & CLIMATE RESILIENCE

COAL-MINE METHANE POLLUTION CAPTURE AND UTILIZATION
FOR ENERGY, AGRICULTURE, RESTORATION & THE ECONOMY

DELTA COUNTY, COLORADO

TEAM: Community Energy for a Resilient North Fork, is...

Colorado Farm & Food Alliance-A Colorado nonprofit working to support rural climate action and to secure a resilient future for the region.

Switchback Restoration-A private Colorado company established to support remediation of coalmine methane pollution and provide community benefit.

Delta Brick & Climate-A private Colorado company that uses nuisance sediment impacting a major agricultural reservoir to manufacture high-quality tiles and ceramics.

This project

- Decreases the burden of environmental and climate harm on a Just Transition and Justice 40 community
- Increase entrepreneurial opportunities and jobs for a rural, disadvantaged community still transitioning out of a coalmining past

This project

- Creates workforce opportunities around a community energy source
- Boosts land remediation and habitat values
- Reduces climate harm
- Boosts local food equity
