

Innovations for Great Lakes Marine Renewable Energy

A multidisciplinary team consisting of experts and researchers from University of Michigan, Michigan State University and Little River Band of Ottawa Indians

OUR TECHNOLOGICAL EXPERTISE

Horizontal axis (left, credit: vmts) and Vertical Axis (right, credit: Fasiai, 2021) Wind Turbines for Wind Energy Harvesting

Current Turbines, (credit: Aquaret)

Point Absorber, (credit: MORE)

Community engagement and education programs

Technical Feasibility Assessment

Design and engineering support

Financial modeling and funding strategies

Regulatory and permitting assistance
