

Energy Solutions for Tomorrow
Project Title: Clean Energy Career Pathways

Lead Organization:	Powerhouse Energy 360
Key Partners:	Veaux Solutions, LLC, Institute for Equitable Development, Inc., JR Bryant and Associates, Ayika Solutions, Inc.
Project Duration:	4 months

Vision:

To create energy independence, environmental benefits, and positive economic impact for disadvantaged communities (DACs).

Goal:

To empower the future clean energy workforce by engaging and increasing the awareness and career readiness of community members and students from DACs.

Expected Outcomes:

Increased access to job, apprenticeship, and entrepreneurship opportunities in solar, solar + battery storage, and electric vehicles.
