### COHORT 3

Onboarded 30 post-revenue companies participated received upskilling and access to projects & capital

Green Power Ventures accelerates climate resiliency and renewable energy and strengthen BIPoC, cleantech founders through funding, upskilling, and networking opportunities.

## HIGHLIGHTS

- Developing Public-Private Partnership and Pilots with federal & city agencies to meet its clean energy goals.
- Helping financial institutions meet their ESG investment goals
- Providing pilots with partners including:
  - Circular economy sneakers
  - SHE-EV charging units, and
  - Cleantech community development.

## ACRRE CONVENTION

Our Platform was designed by BIPoC, cleantech founders for BIPoC cleantech founders. Our lived experiences and interviewing over 30 BIPoC and cleantech founders informed us of unique needs. From there, we invented a networking conference accelerator as a means to these needs.

### Funding

Funders find projects in communities and with founders that they have been looking for.

### Upskilling

Best practices are offered by founders via their journeys.

### Networking

Cohort members are encouraged to form partnerships on projects for mutual growth.
