Jobs for the Future (JFF) is a national nonprofit that drives transformation in the American workforce and education systems. For over 40 years, JFF has led the way in designing innovative and scalable solutions that create access to equitable economic advancement for all. JFF scales programs through national coalitions and networks, influences federal and state policy as well as employer and industry action, and invests capital to incubate new solutions and accelerate innovation. Since its inception in 2018, JFFLabs, the innovation arm of JFF, drives innovation by providing market insights, incubating solutions and investing in companies.

MVP

### Advance

climate technologies through the Climate Resilient Solutions Cohort alumni program

Implement

Connect

entrepreneurs to various sources of funding including grants, contracts, venture capital and other government programs

Multiply

Incubate

to overcome systemic barriers hindering the success of underserved, climate-focused entrepreneurs and help scale the most promising solutions in the climate sector
