ENERGY EQUITY HARD TECH ACCELERATOR

POWERED BY GENER8TOR

gener8tor's mission is to be the best partner for a community to invest in its best and brightest. gener8tor's accelerator programs and funds have supported 1,300+ companies to raise over \$2 billion in follow-on financing and create over 10,900 jobs.

Historically, marginalized communities have disproportionately suffered from the adverse effects of energy production and consumption and have also been largely excluded from the economic benefits of the green energy economy.

gener8tor's Energy Equity Hard Tech Accelerator will select five startups into the cohort for the first year, with the goal of providing support, mentorship, and access to dilutive and non-dilutive capital for hard tech energy solutions developed by founders from marginalized communities or implemented in marginalized communities.
