

Levven's Smart Controls Commitment for the City of Dallas's Energy Conservation

Team Levven USA

Vanessa Wright – Sustainability Manager

Sean Vo – National Account Manager

- Team Levven USA is made up of two colleagues with a passion for change in an industry that needs greater efficiencies.
- With our commitment in aiding construction in reducing build times, materials, costs, copper usage, and embodied carbon, Team Levven USA is committed to helping utilize our technologies to help the heart of our metroplex community, the City of Dallas, Texas.
- In 2022, the City of Dallas spent \$46.5 million dollars on their electricity, which was 672,532 MWh.
- Team Levven USA can overcome energy challenges through a sustainable lighting solution. Our initiative aims to improve energy efficiency and reduce costs and significantly contribute to the city's broader environmental objectives.
