

GOe3 Team

GOe3 Team and its members:

Bruce Brimacombe, Chief Executive Officer: In 1999, Bruce launched an internet computer company that exceeded \$16 million in sales its first year. By 2005, he launched GOe3 bring green energy products to market to fulfill its mission to lead American toward energy independence.

Ethan Garber, Chief of Operations Officer: Ethan has over 20 years of experience as a turnaround investor and entrepreneur. Ethan started his Wall Street career in the loan workout group of Chase Manhattan Bank followed by several years as an award winning distressed debt research analyst.

Our community and the Challenges the face

- GoE3 was formed to develop a coast to coast electric vehicle charging network, which is enhanced with a marketing strategy that will connect the traveling community to various local products and services
- Electrical vehicles owners encounter struggle to travel long distances and there are not enough charging stations resulting in people not purchasing gas vehicles affecting our planet
- We are in the process of installing 1000 charging stations on the main interstates in the United States that connect all of the major cities

Partnerships:

Cave Creek Productions

Real estate partner: Pilot, Flying J

Partnering with several “points of interest” such as restaurants and shopping centers
