

Energy Advantage Roofing and Solar

Energy Advantage Roofing and Solar (EA) is a leading provider of solar and roofing solutions based in Denver, CO, serving communities in Colorado, Texas, and Arizona for over six years. Our company is built on the principles of **Gratitude, Resilience, Accountability, Connection, and Empowerment (GRACE)**, guiding every aspect of our work.

Energy Advantage (EA) is dedicated to promoting justice, equity, diversity, and inclusion by **prioritizing affordable and accessible clean energy solutions.**

Our partnerships with various organizations reflect our commitment to social justice and inclusivity. We foster relationships with communities based on trust, transparency, and mutual respect, engaging in open dialogue to understand and address energy challenges effectively.

We address pressing energy challenges faced by communities by providing **top-of-the-line solar power systems at low costs.**

Over the past six years, **we have designed and installed solar solutions tailored to the specific needs** of individuals, businesses, and communities.

Each **installation maximizes energy efficiency and significantly reduces energy costs, by up to 40%.**

With additional funding and support, **EA aims to expand its impact and provide innovative solutions,** such as:

1. Community Solar Programs
2. Community Energy Resilience Hubs
3. Education and Outreach
4. Green Workforce Development.
