

TEAM ENERGIZING SOUTHEAST ALASKA PRESENTS

# PRINCE OF WALES INTEGRATED FOREST ENERGY CAMPUS

TEAM OF EXCELLENCE

ROBERT VENABLES

KAITLYN JARED

KAREN PETERSEN

Collectively over 60 years of experience in public engagement and alternative energy advocacy work.

Equitably working with the community of Thorne Bay, Alaska to find a renewable and sustainable alternative bioenergy solution for building space heat to reduce the community's impact on global climate change as well as to improve the economic opportunities and quality of life in Thorne Bay through the creation of local, good paying jobs, and rejuvenation of the forest industry.
