

EMPEQ <> Rochester Community-Wide Energy Assessment Program

Internal Team

Herbert Dwyer- Co-Founder/CEO Jacob Luthi- Project Manager
Derek LaClair- Co-Founder/COO Rob Zweesaardt- Climate Justice Fellow
DC Hall- Director of Product

- Introduce your community (or communities) and summarize the energy-related challenge (or challenges) here.
- EMPEQ will work with the National Community Action Foundation (NCAF), Action for a Better Community (ABC), and the 2030 Districts Network to accelerate building decarbonization in the city of Rochester, New York. The team will target the J.O.S.A.N.A. and Brown Square neighborhoods in the City of Rochester to use Artificial Intelligence and Computer Vision technology to conduct community-sourced energy assessments more efficiently and more effectively than the traditional pen and paper process.

Partners

- Action for a Better Community (ABC) – Shinita Hlywa, Energy Conservation Program Director
- National Community Action Foundation (NCAF)- David Bradley, Chief Executive Officer and Co-Founder
- 2030 Districts Network – Dave Low, Executive Director
- New York’s 25th District House Rep. Congressman Joseph D. Morelle
