OPERATIONS
MANAGER

Managed operations
for a \$20 million
construction company

BluSky, deeply integrated into Middlesex County, Connecticut, actively addresses environmental challenges through sustainable waste management and decarbonization efforts, with a team passionate about transforming these issues into opportunities for community development. The community, a manufacturing nexus with a significant aerospace presence, faces urgent energy challenges, which BluSky aims to mitigate by enhancing recycling rates and fostering renewable energy sources, in alignment with legislative goals for a sustainable future.
