

Community-Driven Clean Transportation in Rockways and South Springfield Gardens

- **Challenge:** South Queens has limited transit and other clean transportation options
- **Solution:** Engage *Rockaway and South Queens Transportation Alliance* to determine where to put building-powered Level-2 curbside EV chargers
- **Benefits:**
 - Community-driven process
 - Enables drivers who park on the street to make the switch to EVs
 - Charging is cheaper than gasoline
 - Faster and cheaper deployment using existing grid capacity
 - Revenue share for property partners
 - Cleaner air for all
