

Rural Siskiyou County (CA)

Our mission is to empower business growth, build success, and connect communities in Siskiyou to vital resources for prosperity.

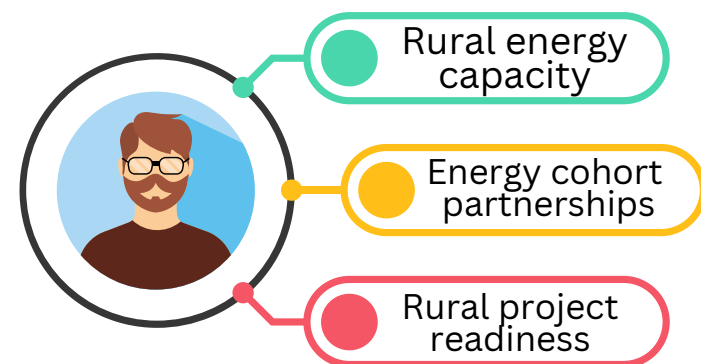

The Energy Team

Kory Hayden, Emma Morris, Jen Thackeray, Jason Young

The Siskiyou Economic Development Council (SEDC) team has been serving Siskiyou's rural communities for nearly 40 years. The SEDC works with jurisdictions and businesses to create a prosperous rural economy. The energy team and our jurisdiction partners are dedicated to building Siskiyou County's capacity to lead clean energy projects.

Our Project

Our MOU Partnership unites our organization with the county's nine jurisdictions, to prioritize clean energy projects, together.

The Siskiyou SOLVE-IT partnership aims to **1)** establish a renewable energy microgrid in a rural, disadvantaged community, **2)** promote downtown renewable energy exhibits, and **3)** collaborate on clean energy designs for the redevelopment of the Landing, a 127 acre brownfield site, in Mt. Shasta.

- McKinney Fire** | 7/29/2022 | Acres Burned | 60,138
- Mountain Fire** | 9/02/2022 | Acres Burned | 13,440
- Mill Fire** | 9/02/2022 | Acres Burned | 3,939

This prize will aid in overcoming barriers and advancing clean energy projects, mitigating wildfire risks and uplifting our rural communities in California's True North.
