

Tech Empowerment for Workforce Development

Workforce Technology Partners

The digital divide exacerbates access and inclusion challenges in energy sector employment, emphasizing the need for accessible, secure technology-facilitated services. LIFE3 and our technology partners are helping to implement and adopt digital tools to enhance service delivery and inclusivity, addressing employment inequities in the energy sector effectively through the following collaborations

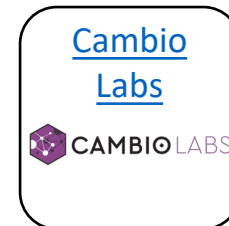

- LIFE3 to lead User Experience for workforce development, and project management organization for workforce development
- LIFE3 & CareerEquity to support CRM System development
- Skim AI to provide advisory services, and implementation for LLMs and other AI technology

Clean Energy Community Partners

The workforce development contracts, being led by our clean energy community partners meet, service communities which meet the thresholds for being defined an environmental justice community based on both minority population, low-income statistics, and high concentration of polluting facilities like power plants, waste transfer stations, and highways

- Soulful Synergy and the (WestCOP) Advanced HVAC-R & Clean Heat Training
- Duro Workforce and the Autonomous Monitoring Program (AMP) & CUNY Mentorship Programs South Bronx, and Harlem community
- Cambio Labs and RETI Center's Solar Training program
