Creating Pathways to Sustainability Through Adaptive Regeneration

Addressing Community Justice Needs in:

- climate change
- energy
- health
- housing
- legacy pollution
- water and wastewater
- workforce development

Environmental Resource Center (ERC) Hub for Urban Resilience

Imagine a vibrant hub for our community, a place where neighbors, both near and far, can gather to learn the secrets of nature's resilience. From nurturing a native plant nursery to mastering the art of composting and harnessing the power of the sun, these Environmental Resource Centers will empower us all to create a more sustainable, regenerative community.
