

Building Community Resilience by Greening Church

Actively Building Community Capacity to Achieve Resilient Communities (ABC2 ARC)

Gwendylon Smith, Anthony Kinslow, Donna Stephens, Khalifa S. Lee

Our community is located in Northwest Atlanta in a predominately African American Community which is surrounded by industry, highways, and landfills. The neighborhoods in these communities have been here since the late 40s and have churches throughout. To address these environmental challenges we will build revenue generating resiliency hubs that are micro-grids.
