

HBCU Alliance for Clean Energy Innovation

Unifying Energies Alliance

Green Power Ventures, Atlanta, GA

Morehouse College, Atlanta, GA

HBCU Green Fund, Atlanta, GA

- HBCUs have not received the same level of resources as predominantly white institutions; however, they have been able to generate a large number of Black professionals and have positively impacted their communities.
- A large number of African Americans are proximate to HBCUs and therefore can be positively impacted through our initiative.
- Training HBCU students in Green Energy will create jobs, businesses while reducing greenhouse gases.
