

Seanergy Power Plant

Cost of Seanergy Power Plant is 10 times lower than traditional Hydro or Wave powered plants.

	SEANERGY	HYDRO	WAVE
Efficiency	98%	90%	90%
Cost per MW	\$ 1 Million / MW	\$ 2-8 M/MW	\$ 2-5 M/MW
Output / year / unit	25 MWh	25 MWh	25 MWh
Output / year / unit / acre	20-24 MWh (3-4X more)	2.5-3 MWh	2-3 MWh
Operation time	100 % / year	75-80% / year	70-80% / year

Seanergy Power Plant cost decreases if Capacity is increased, unlike other power plants.
