

ReBuild: Circular Supply Chains for Sustainable Housing

Mission: Empowering communities through sustainable housing solutions using recycled materials.

Innovation Overview:

- Sourcing recycled housing materials from demolished buildings.
- Processing and ensuring quality control of materials.
- Distributing materials for affordable housing projects.

Potential Impacts:

- **Environmental:** Significant waste reduction, resource conservation, and lower carbon footprint.
- **Social:** Creation of affordable housing, job opportunities, and enhanced community resilience.
- **Economic:** Cost savings in construction, development of a market for recycled materials.

Implementation Plan:

- **Phase 1: Identify!**

Market analysis, partnerships, and detailed planning.

- **Phase 2: Prepare!**

Refine plan, technical assistance, and network building.

- **Phase 3: Develop!**

Pilot projects, expansion, and continuous evaluation.

Team:

- Anna Lymonova (CEO)
- Kateryna Carr (COO)
- Natalia Grytsenko (CFO)
- Pavlo Grytsenko (Program Director)
- Anastasia Ovchinnikova (Social Services Manager)
- Victoria Braciulyte (Community Integration Coordinator)
- Illia Lymonov (Facilities Manager)
- Inna Naboka (Facilities Manager)
- Gennadiy Naboka (Security and Safety Coordinator)
