

re:waste | Reuse for e-waste

Uncollected e-waste

Through education and outreach efforts about this program, we will increase the amount of e-waste being diverted from the **landfill**.

e-waste collected by:

**CONSERVATION
CORPS NORTH BAY**

A path to a better future.

By keeping materials in circulation **(through reuse + repair)**, we can realize many economic and social benefits, in addition to ensuring the lowest environmental impact.

Through this program, we can realize the greatest environmental + economic benefit for materials before they become **recycling**.

Lowest Environmental Impact from Avoided Emissions
