

Establish contracts with **industry partners** to secure circuit boards and magnets from hard drives.

Circuit board recovery options:
1) Circuit board refining
2) Circuit board reuse

Magnets sent to **CMR** for rare earth element and neodymium oxide recovery.

Wind turbine magnets sent to **CMR** for rare earth element and neodymium oxide recovery.

1)  **GANNON & SCOTT**
Refiners and Assayers of Precious Metals Since 1919

Blockchain integrated software tracks hard drive and wind turbine decommissioning or repowered wind turbines.

Establish contracts with **industry partners** to secure neodymium magnets from decommissioned or repowered wind turbines.
