

# Big Star

is a chatbot that allows solar contractors to rapidly build their own sales agents. It's designed to orient the conversations so that key data points are captured, and to educate a potential customer with a contractor's own knowledge base.

Hi, I'm big star, an AI Agent. Could we start with your address?

It's 122 Elm St,  
Pleasantville, CO

✓ Address detected

Great! Pleasantville has a municipal solar rebate. Do you own that property?
