

PVBatts.com – Solar Battery Design at your Fingertips

01 Quickly simulate entire year based on weather, electric rate, and net-metering policy

02 Smartly model Multi-modal behavior for **economics** and **home backup**

03 Identify the right amount of batteries to sell to the customer and share data with your favorite proposal builder

Hour	Site Consumption	Solar Offset	Grid SellBack	System Consumption	Dollar Sellback	Battery Charge	Import Rate	Operating Mode
