

# Multi-Height Tile Stanchion

- ❖ Next-generation stanchion-style roof attachment, incorporating a two-part, height adjustment feature.
- ❖ Stanchion height is adjusted to match tile height, avoiding excessive and unattractive gaps under modules.
- ❖ Enables the mount to be installed before the roof tiles while maintaining high-quality aesthetics.
- ❖ Cost competitive, offering up to 2.5 ¢/W customer savings.
- ❖ Led by a team of solar racking product development engineers with a collective 23 years of experience, 42 patents, and 10 racking systems brought to market.
