

Agrivoltaic Design Studio by Serida Inc.

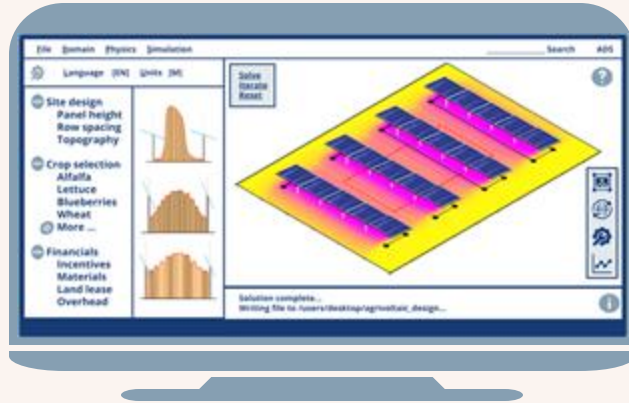

Large-scale solar is facing **significant community resistance**

Agrivoltaics is a win-win solution, but current solutions are **inefficient** and **ineffective**

Our **advanced crop algorithm** helps solar developers access suitable land through **responsible agrivoltaics design**

We **empower rural areas** and reduce opposition by maximizing **community benefits** with agrivoltaics

**Community
Connection
Portal**

Our mission: Unlock **equitable** solar energy deployment
