

# SPARK INNOVATION CENTER

SparkShop: Bringing cleantech  
prototypes to life

*SparkShop* provides product development support, resources and training designed to help cleantech startups accelerate market entry, validate technology, and boost investor confidence. In the MVP stage of implementation, we provided product development training to 13 companies and engaged 22 students in prototyping for cleantech startups.

SparkShop adds a new program area to the Spark Innovation Center, which has helped 40 cleantech startups to collectively create **108 jobs** and raise **\$88 million dollars** in 4 years
