

Telasol by FINO Advisors, LLC – Summary

Project name: High Efficiency, Small Size Solar Technology by FINO Advisors, LLC (FINO).

Tagline: FINO's Telasol: Maximizing Power, Minimizing Space – The Future of Solar Technology!

FINO's Telasol solar technology produces 5 times more power compared with standard solar panels, reducing costs and space needed.

Connectors: Amanda Buchanan (UACI); Rachel Dortin (Encolor); Nupur Joshi (ADL Ventures)

Team: Rene Ramirez, CEO rene@finoadvisors.com, 281-221-7218 <https://www.linkedin.com/in/rene-ramirez-147a54ba/>
Justin Hartman, justin@finoadvisors.com, 918-606-6425 <https://www.linkedin.com/in/justin-hartman-99476b12/>
Anna Thauberger, anna@finoadvisors.com, 303-547-5991 <https://www.linkedin.com/in/annathauberger/>
Swasti Jain, swasti@finoadvisors.com, 765-476-3537 <https://www.linkedin.com/in/swastijainn/>

Keywords: Optics Tuned Photovoltaic Receptors; Limit excess energy/heat production; Higher concentration factor; Solar efficiency improvement; Shrink semiconductor area to less than 1/1000 vs. solar cells; Spectral splitting

Location: 2017 West Gray St, Houston, TX 77019-3654 <https://www.finoadvisors.com/>

JEDI Competition: We're in!
