

# Door'n Again: A Plan to Accelerate a Material Reuse Ecosystem for Commercial Wood Doors through Remanufacturing & Refurbishment

*Large qtys. of non-matching doors available but not desirable*

*Sell back to commercial projects in larger quantities to get larger share of market*

*Aggregate and run through scalable and consistent processes*

*Sanding, re-veneering and re-finishing processes to create new look and uniform appearance*

*Integrate remanufactured product with rest of door system to meet needs of customer*
