## Expected Impacts

**20%** increase in waste diverted, leading to 720,000 more pounds diverted annually.

**6M** more pounds of Greenhouse Gas emissions avoided annually.

**10%** increase in refurbished devices, resulting in 6,000 more refurbished devices annually.

**15%** increase in Human-i-t workforce, with at least 25 new employees hired from local communities.

**1** new Digital Equity and Refurbishment Center opened.
