

# BEATRICE NEBRASKA CLEAN ENERGY MANUFACTURING

## LOCAL ENERGY MANUFACTURER PARTNERS

### Consult Local Businesses:

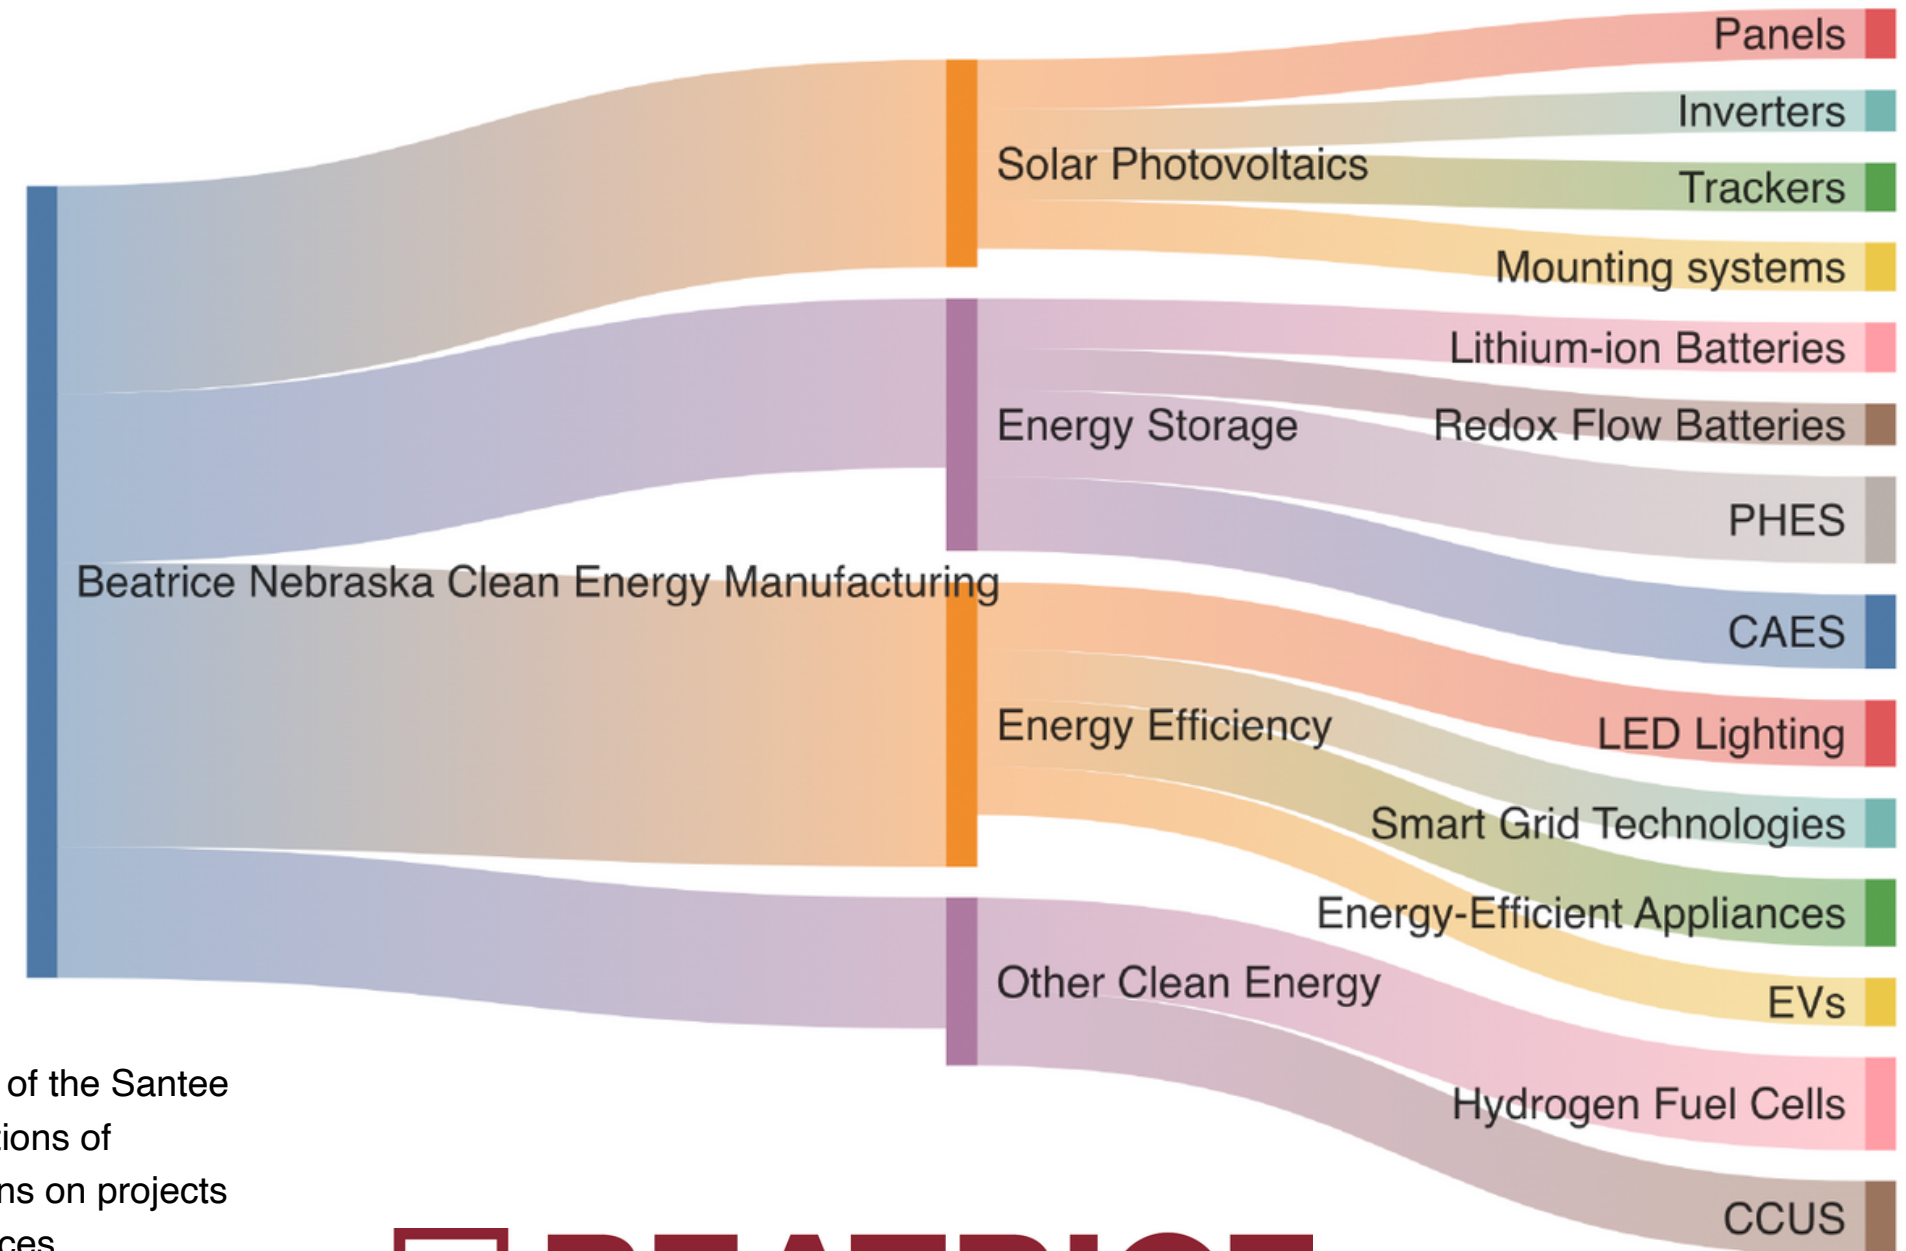

Nelnet Renewable Energy: Their expertise can be particularly helpful in project financing, development, and ownership structures for renewable energy initiatives.

Green Plains Inc.: Offers knowledge on biofuels and related infrastructure.

LS Cable & System: Expertise in manufacturing cables and related equipment crucial for transmitting renewable energy efficiently.

Valmont Industries: Involved in manufacturing towers, utility structures, and other components essential for renewable energy projects.

Support the sustainability efforts of the Santee Sioux and Winnebago Tribal Nations of Nebraska by holding consultations on projects impacting their lands and resources.

### EDUCATION

Develop curriculum focused on renewable energy jobs, creating internship opportunities for students, and establishing research partnerships with Southeast Community College

### ECONOMIC DEVELOPMENT GROUPS

Partner with economic development groups (EDGs) (SNEDD, Beatrice Area Chamber) that possess valuable data and information on the local Beatrice economy, workforce trends, and existing infrastructure.
