

Post-COVID Energy Storage Supply Chain Manufacturing Roadmap for a Vibrant Northeast Ohio Region

Principal Team

- **Team NEO:** Northeast Ohio Region's private, nonprofit economic development organization and JobsOhio Network Partner.
- **BRITE:** Ohio's innovation-first energy technology entrepreneur program advancing the transition to a clean energy economy.

Project Details

- **Region:** Northeast Ohio (NEO), comprised of eighteen counties that include five metropolitan areas (Akron, Canton - Massillon, Cleveland – Elyria, Mansfield, Youngstown-Warren-Boardman)
- **Vision:** Accelerate growth in the Northeast Ohio economy through the attraction, retention and growth of new commercially viable clean energy manufacturers that leverage the region's rich manufacturing heritage, unique assets and talented workforce.
- **Prize Goal:** Enable small & mid-sized companies to diversify and engage in clean energy manufacturing as well as attract energy storage supply chain companies to Northeast Ohio towards vibrant regional economy -- one that is talented, resilient, innovative, and equitable -- with a goal to drive economic growth and prosperity.
